Reasons for Allowance

Claims 5 and 12 have been cancelled. Claims 16-20 have been added. Claims 1-4, 6-11, and 13-20 are allowed.

The following is an examiner's statement of reasons for allowance:

Consider independent **claim 1**, the best prior art of record found during the examination of the present application, Rosen et al. (US 2002/0173326 A1) in view of Black (US 2004/0057405 A1), fails to specifically disclose, teach or suggest creating an announce message corresponding to the push-to-talk initialization request; addressing the announce message to the recipient handset; and broadcasting the announce message over the wireless communication network, wherein the announce message is transmitted over a plurality of base stations the plurality of base stations covering a geographic region where the recipient handset is expected to be located.

These teachings clearly differ from the claimed invention, therefore, claim 1 of the present application is considered novel and nonobvious over the prior art and, consequently, is allowed.

Claims 2-4 and 6-7 are allowable because they are dependent upon independent claim 1.

Independent **claims 8 and 15** recite similar features of independent claim 1. Therefore, these teachings clearly differ from the claimed invention, therefore claims 8 and 15 of the present application is considered novel and nonobvious over the prior art and, consequently, is allowed.

Claims 9-11 and 13-15 are allowable because they are dependent upon independent claim 8.
